

Charter

(Version updated 24 May 2018)

Vision and Mission

This Charter establishes and defines the objectives, governance and management of the Access to Insurance Initiative (A2ii) - a unique joint initiative between international development agencies and the International Association of Insurance Supervisors (IAIS).

As implementation partner of the IAIS, the A2ii's mission is to strengthen the capacity and understanding of supervisors to facilitate the promotion of inclusive and responsible insurance, thereby reducing vulnerability. The A2ii has the vision that more poor and vulnerable people have access to, and use of, affordable insurance appropriate for their needs.

The A2ii was established by the following organisations: the IAIS, BMZ, CGAP, the International Labour Organization, represented by the International Labour Office (ILO) subsequently renamed the Impact Insurance Facility and FinMark Trust.

The IAIS is the standard setter of the insurance sector and today comprises more than 200 member insurance supervisory authorities from nearly 140 jurisdictions - the majority from emerging and developing markets. Financial Inclusion is therefore a core priority of the IAIS and its members. The A2ii acts as the implementing partner to the IAIS to advance access to insurance and inclusive insurance market developments.

1. Funding Partners

1. Entities that provide in kind and/or direct financial contributions in support of the workplan and budget of the A2ii are referred to collectively as "Funding Partners". Funding Partners shall not include any insurer, insurance intermediary or private financial institution. Those Funding Partners that provide un-earmarked and substantial financial support which covers basic "core" organisational and administrative costs of the A2ii and that is used to finance the functioning of the A2ii are referred to collectively as "Core Funding Partners".

2. Purpose and Objectives

2. The purpose of the A2ii is to strengthen the capacity of policymakers, regulators, and supervisors seeking to advance insurance market access by promoting sound, effective and proportionate regulation and supervision of insurance markets that will facilitate the growth and availability of insurance products appropriate for poor and vulnerable consumers.
3. To achieve this purpose, the A2ii will pursue the following objectives:
 - a. **Knowledge management:** Generate knowledge on how the regulation and supervision of insurance markets can facilitate the extension of insurance services to low-income consumers and the development of inclusive insurance markets generally;
 - b. **Advocacy and outreach:** Disseminate knowledge and build awareness on development of inclusive insurance markets; and
 - c. **Supervisory support and capacity building:** support insurance regulators and supervisors to develop a regulatory framework and supervisory capacity that enable and promote access to insurance in their jurisdictions.
4. In pursuing these objectives, it is acknowledged that all IAIS standards, guidance and implementation activities are subject solely to IAIS policies, procedures, governance, and decision-making.

3. Scope of activities

5. The A2ii shall pursue the following activities, recognising that such activities are dependent on financial resources available to the A2ii:
 - a. Generate knowledge and best practices on the regulation and supervision of insurance markets;
 - b. Develop and disseminate information, assessment and training tools and other instruments that foster access to insurance;
 - c. Contribute, as appropriate, to the standard setting activities of the IAIS and as the IAIS implementation partner support the implementation activities, such as assessment of IAIS standards and translation of IAIS material;
 - d. Analyse, distil lessons and report to stakeholders on the impact of regulatory initiatives on access to insurance;
 - e. Grow expertise in the application of guidance on inclusive insurance;
 - f. Foster awareness and know-how about the role of regulation and supervision in the development of inclusive insurance markets;
 - g. Interact with institutions and/or projects that can assist with or further the realisation of the A2ii's objectives; and
 - h. Facilitate support to insurance regulators and supervisors to develop a regulatory framework and supervisory capacity that enable and promote access to insurance in their jurisdictions.

4. Governance

4.1 Status

6. The A2ii does not have separate legal personality. As such, the A2ii cannot enter into legally binding contractual relationships with third parties, nor can it contractually bind the Funding Partners. When the activities of the A2ii require entering into legally binding contractual relationships, the Host (as defined in Section 5) shall execute the contract in question in its own name and subject to available funding.

4.2 Governance and management structure

7. The A2ii shall be governed and managed through three bodies:
 - a. The **Governing Council**, being the highest decision-making body of the A2ii, determines its strategy and provides oversight for all its activities;
 - b. The **Executive Committee** shall take all decisions necessary to achieve the mission of A2ii in accordance with the directions given by the Governing Council except those decisions that are assigned to the Governing Council. The Executive Committee is responsible for providing strategic advice and making recommendations to the Governing Council and it is accountable to the Governing Council; and
 - c. The **Secretariat**, led by an Executive Director or Head of Secretariat (Senior management), is responsible for the execution of A2ii's mission and is accountable to the Executive Committee. The Secretariat shall be hosted by the Host (as provided in Section 5 below).
